JANRELLE L. LUBIANO

JUNIOR FULL-STACK DEVELOPER

Victory, Tubay, Agusan del Norte | +63 938 298 8902 | lubianojanrelle@gmail.com
GitHub: github.com/janrelle24 | Portfolio: v2-portfolio-website.netlify.app

PROFESSIONAL SUMMARY

Junior Full-Stack Developer with a BS in Computer Science who has shipped **three live full-stack applications** using React, Node.js/Express, and MongoDB or PostgreSQL, each with REST APIs, authentication, and cloud deployment on Render and Netlify. Built an AI-powered RAG assistant on the Google Gemini API and a security-hardened documentation platform with JWT auth, bcrypt, rate limiting, and input validation. Background at the Philippine Statistics Authority brings a habit of verifying data and handling sensitive information carefully. Seeking a remote junior full-stack role where I can ship features, integrate third-party APIs, and grow quickly.

TECHNICAL SKILLS

Languages: JavaScript, SQL, HTML5, CSS3
Frontend: React.js, Vite, TailwindCSS, Responsive Web Design, IndexedDB, PWA
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Database: MongoDB, MongoDB Atlas, PostgreSQL, Supabase
AI / API: Google Gemini API, Retrieval-Augmented Generation (RAG)
Tools & Deployment: Git, GitHub, Netlify, Render

SOFTWARE DEVELOPMENT PROJECTS

DevVault: Full-Stack Developer Documentation Hub | 2026

- Delivered a role-based documentation platform covering **5 API modules** (documents, categories, tags, bookmarks, user activity), by building REST APIs in Node.js/Express on PostgreSQL (Supabase) with a React frontend.
- Protected user accounts and data with **4 layers of security** (bcrypt hashing, SQL parameterization, input validation, rate limiting), by implementing JWT authentication, email OTP verification, password reset, and role-based access control.
- Enabled **offline reading and automatic bookmark sync** on reconnect, by building a PWA with IndexedDB.

E-Tanong AI: AI-Powered Inquiry Assistant | 2026

- Launched a **live, publicly accessible AI assistant** that answers questions from a PDF knowledge base, by building a RAG pipeline (document chunking, embeddings, context retrieval) on the Google Gemini API.
- Shipped a full-stack app with **2 independent live deployments** (frontend on Netlify, backend on Render), by connecting a responsive React chat interface to backend REST APIs.

GitHub: github.com/janrelle24/ai-inquiry-assistant Live Demo: e-tanongai.netlify.app

Notebook App | 2025

- Delivered a **complete CRUD note-taking app with authenticated, protected routes**, live on Render, by building a modular Node.js/Express backend with MongoDB and REST APIs.

PROFESSIONAL EXPERIENCE

Philippine Statistics Authority (PSA)

Statistical Researcher | Jul 2024 – Sep 2024

- Improved the accuracy and completeness of survey data, by cleaning and validating collected data and following up directly with respondents on incomplete or inconsistent answers.

PhilSys Register Kit Operator | Nov 2023 – Jul 2024

- Kept National ID registrations accurate and complete, by verifying applicant information and supporting documents and following established data-handling procedures for sensitive biometric data.
- Minimized registration interruptions, by troubleshooting registration software and biometric equipment on the spot.

EDUCATION

Bachelor of Science in Computer Science | Caraga State University – Main Campus, 2023
